

Principals' Association of Colleges of Education, India (PACE-India)  
Kerala Chapter & KPPM College of Teacher Education, Anakkayam,  
Malappuram Jointly Organises

State Level Webinar for the  
Principals of Colleges of Education, Kerala

15<sup>th</sup> SATURDAY  
MAY 2021 at  
10.00 am

## NATIONAL EDUCATION POLICY 2020 AND CHALLENGES OF COLLEGES OF EDUCATION

Principals' Association of Colleges of Education, India (PACE-India) is the only platform for principals of colleges of education in India. PACE-India is working for the quality restoration of education through quality teacher education. We are conducting several programmes at the state level and national level for improving the standards of principals and teacher educators of the colleges of education.

National Education Policy is expected to bring qualitative changes in the field of teacher education. The teacher is a pivot in educational practices and moulds, competent future citizens, to lead our nation. The proposed changes in the NEP 2020 have developed a lot of ambiguities about the teacher education programmes. The proposal of 4-year integrated programmes and their implementations also restricted to multidisciplinary institutions. This has accelerated dilemmas among the policymakers, administrators and teacher educators.

In this context, PACE-India jointly organises a webinar on NPE 2020 and the challenges of colleges of education with KPPM College of Teacher Education, Anakkayam, Malppuram. This webinar is a platform to develop an insight into NEP2020 and to discuss the key issues of teacher education.
